Federal Authorities in Brooklyn Doubt if All Named Really Are Slackers.

Indictments against 2,284 alleged draft desgers of the war time period were filed yesterday by the Federal Grand Jury sitting in Brooklyn for the Eastern District, which includes Long Island and Staten Island.

All of the charges are based either upon apparent failure to file the necessary war time questionnaire, failure to selective draft regulations or fallure to entrain in accordance with orders. In the office of Leroy W. Ross. United States Attorney, it was admitted that. despite the careful investigations made, it will be found in all probability not less than 10 per cent, of the indicted men are not actual slackers. It is believed many who did not file their question-bares as the law required neglected to do so because they had already collected. of so because they had already enlisted.

type of those named, it was said, are
not in this State and in all probability
in unknown number joined the service hi other States. It would not surprise the Federal officers if it should be found that some of the men named in indict-ments actually fell while fighting for

The 2,264 indictments, said to be the largest number ever issued for alleged slackers at one time in the country's history, were filed with Judge Thomas J. Chatfield of the United States District Court. No warrants have been lasued test, but it is expected they will soon and that James M. Power, United States Marshal for the district, in serving them will have the cooperation of the city rolice, as well as of agents of the Department of Justice.

With the announcement of the wholesale slacker hunt in the Brooklyn dis-trict it became known that in the Man-hattan Pederal district, which includes not only Manhattan and The Bronx, but about a dozen other populous counties lying to the northward along the Hudson River, there has been a vain effort to trace between 7,200 and 7,300 alleged wartime slackers. Warrants have not been issued against these men, as a procedure on information is held by Col. Francis G. Caffey, United States Attor-ney for the district, to be equally ef-

### Choosing Your Barber

TF you are a wanderer—going from one place to another trying to find a satisfactory barber-and a sanitary shop-

-come to any one of the ten Terminal Shops and you will find both.

It makes no difference which barber serves you—they're all thoroughly competent or they wouldn't be Terminal barbers. And it makes no difference which razor or shaving brush or hair brush your barber uses-for they're all sterilized before using.

Although this kind of service costs the shop considerably more than the usual sort, we have proven that it can be given without excessive cost to the customer.

# The closing hour has come!

▲ FEW days ago, almost one thousand men and women of New York were graduated from New York University.

It is not for them that the closing hour has come. They were fortunate enough to receive the full benefit of university education. New York is richer because of them.

But next fall, almost one thousand men and women of New York will be point-blank denied admission to this useful University -not because they cannot qualify (they could pass all entrance requirements)-not because they lack ambition (most of them earn their own livelihood)-nor because THEY could not afford it (they are prepared to pay their tuition)—but because the University which bears the name of New York-richest city-

is too poor to accommodate them.

For eighty-nine years New York University has been known only for the work she has done. Her financial difficulties she has borne by herself.

In the past nine weeks New York University has revealed the strangulating finances despite which she gave her practical, useful education.

Experienced business men have estimated her immediate needs at \$6,450,-000. This is the amount she asks of New York-the city whose leadership she is trying to sustain.

New York was proud to learn that the telegraph and other scientific advancements were developed at New York University.

New York was surprised to learn that men and women could receive training in industrial management, accounting, merchandising, finance, as well as law and engineering, teaching, medicine and veterinary practice, at New York University.

New York has shown its truly appreciative spirit, for many New Yorkers have contributed to the fund-but not enough!

Now, as the closing hour of this campaign has arrived, the figures show that only a fraction of the \$6,450,000 has been subscribed as yet. But the full amount must be raised between now and the time this campaign closes. For next year, and in ten, twenty, fifty, one hundred years New York University will still be showing the results of New York's effort today.

Never before has New York University made such an appeal. Never before has her need been so urgent, nor New York's need for her so great.

She MUST have the money and rightfully turns to you for it. If you can't give as much as you would like to give, give as much as you can.

But do it at once. Every contribution is welcome, no matter what its size. And every contribution will be directly applied to the educational work of the University that benefits everyone in New York.

Remember\_"It's in New York; it's for New York."

### **New York University Endowment Fund** 512 Fifth Avenue, New York

For the purpose of enlarging the educational service of New York University, I hereby agree to pay to the Endowment Fund the sum of \$..... payment to be made in five equal semi-annual installments over a period of

21/2 years. (Please make checks payable to Charles H. Sabin, Treasurer.)
